Community Safety Tip

From the Yarramalong Rural Fire Brigade

Having a home fire escape plan saves lives! Draw your escape plan on paper and discuss it with all members of your family. Consider special needs of children, the elderly and the disabled when developing your plan. Make sure there are two exits from every room, and that the windows and doors can be opened quickly. In case of a fire get down low and exit each room in the opposite direction to any fire. Have a safe meeting place outside, call "000" from a neighbour's house, and once outside never go back inside a burning building. Make sure to practice your plan regularly as this could save the life of everyone in your home.
